Job Information –

The beautiful and culturally progressive State of Qatar is home to the world class post-secondary institution, College of the North Atlantic -- Qatar (CNA-Q). Internationally recognized and acknowledged as a comprehensive technical college, CNA-Q is committed to high quality, student-centered, post-secondary education. This commitment is reflected through state of the art facilities, accessible and responsive technology programs and strong partnerships with industry. With more than 750 staff and 4500 full and part time students, CNA-Q is one of Qatar's largest post-secondary institutions.

As outlined in *Qatar National Vision 2030*, Qatar aspires to have an educational system that prepares individuals for success in a changing world with increasingly complex technical requirements. By providing training in a range of technical areas including Business Studies, Engineering Technology, Health Sciences and Information Technology, CNA-Q brings the State of Qatar closer to this goal.

DUTIES: The successful candidate will be responsible to direct and participate in the analysis, design, evaluation, testing and implementation of PeopleSoft Enterprise Solutions (HRMS, FSCM, and Portal), provide day to day technical support for assigned systems, contribute to the overall planning of projects and issue resolution by recommending approaches, identifying resources, and developing timelines, follow documented procedures for configuring, maintaining, upgrading, testing, coding the application/custom interface routines and mentor and educate other team members.

QUALIFICATIONS: The successful candidate must be a highly motivated individual who can work independently and with project teams. The ability to establish and maintain effective working relationships and possession of excellent communication and interpersonal skills are essential. Ability to develop and troubleshoot using the PeopleTools tool set, including Application Designer, PeopleCode, Application Engine, Application Messaging, Integration Broker and Component Interface. Ability to develop in and troubleshoot using SQL, Crystal and PS Query and write and execute SQL. Well-developed organizational and analytical skills are also required. The ability to estimate and track project task timelines is essential. Experience working on many projects at one time and effectively prioritizing work would be considered an asset. Working with business users to analyze business problems as well as propose technical solutions. These skills would normally be acquired through the completion of a degree/diploma in a computer-related program of study from an accredited institution, supplemented by considerable recent related work experience. Experience with PeopleTools and Microsoft SQL server is required. Experience with XML, Project Management, Java, .NET and a Higher Education organization is desirable. Cross-cultural awareness and previous work experience working in a multi-cultural or international environment would be an asset.

NOTE: Employment is contingent upon successful completion of the State of Qatar visa process.

If you are a **CANADIAN CITIZEN** with excellent English language skills and are ready for a professional and personal adventure in the Middle East, we'd like to hear from you. Please visit our website <http://www.cna.nl.ca/careers/> to apply on line.
